### PROFILE

As a Lead Developer, my job is to continually learn new rapid development technologies and methodologies to build search engine optimized websites that are beautiful, easy to use, responsive, performant, full of meta data, semantic, and html web standards compliant. I also encourage my team to utilize these new technologies and processes in order to optimize our development workflow. Outside of work, I love spending time with my family and friends, tinkering on a personal projects, getting outdoors, and even occasionally laying in my hammock.

### SKILLS

#### Languages:

HTML5, CSS3, PHP, JavaScript, SASS, LESS, Bash Script, SQL, Java, Python, C/C++, Processing, VBScript, Ruby

#### Familiar Software:

WordPress, Foundation 5 & 6, Linux, Git, Gulp, Slack, Apache, MySQL, Xdebug, Kcachegrind, FileZilla, NPM, Eclipse, Jenkins CI, Grunt, Bower, Maven

#### Familiar Web Services:

W3C HTML Validator, Google SDTT, Google PSI, New Relic, Bitbucket, Github, cPanel, Amazon EC2, Route 53, Rackspace, GoDaddy, Function Point

### EXPERIENCE

#### Lead Developer

For: Matmon

From: Jan. 2013 - Present.

I developed leadership skills from directing, educating, and assisting interns, part time employees, and my fellow coworkers. I mastered custom Wordpress theme and plugin development, the utilization of performance web technologies, responsive web design strategies, Schema.org meta data markup, and symantic markup. Check out my website for examples of my work.

#### Intern

For: Acxiom

From: May 2012 - Aug. 2012

I was exposed to scrum/agile development methodologies, and recieved on the job experience with: C++, Java, Subversion, googletest, Jenkins CI, zeroMQ, Maven, Eclipse, FileZilla, Windows and Linux.

#### President & Founder

Of: SML Tech Services, LLC

From: Mar. 2012 - Present

My LLC has taught me small business management & finance (to stay legal and up to date on my taxes), and has sharpended my DNS configuration, Web Hosting administration, and LAMP stack administration skills.

#### Systems Administrator

For: The UALR IFSC Dept.

From: Feb. 2010 - Dec. 2012

I learned how to install, maintain, and troubleshoot all technology for the department including: 200+ computers, 50+ laptops, 15+ servers, 10+ printers, 5+ projectors, 4+ HD remote webcams, and 4 half racks of audio and video equipment. I was also in charge of password removal, registry hacking, RAID management, HDD imaging, virus & malware removal, inventory, and finally VMWare & RDP support. During my last year at UALR I trained and educated my assistant on all of these responsibilities.

### EDUCATION

- Bachelors in Information Science from UALR in 2014.
- High School Diploma from ASMSA in 2008.

### RECENT ACCOMPLISHMENTS

- Speaker at the 2015 Spring and Summer East Conferences on *Arduino - Real World Applications and Uses*
- BSA 2015 President's Marketing Awards Best Website for quapawbsa.org
- UALR Information Science Dept. Outstanding Sophomore - May 2011
